FRIDAY, FEBRUARY 8, 1918.

The soul of Susan B. Anthony goes marching on.

Torpedoing hospital ships deliberately and killing wounded is not a civilized act of warfare.

If that man Hoover keeps on he will have all the doctors "down on him." There won't be a case of chronic dyspepsia or gout in the country.

The big hog production rally recently pulled off in this county was strangely silent on the question of increasing the tribe of the "hog that walks like a man."

Ex-Governor Patterson is out in a statement declaring it is not his purpose to antagonize Senator Shields before the primary. A very wise decision, Ham.

Liberal sentiment in Germany may soon put the pan-German element in the frying-pan. Leavening of the President's reply to the Pope is permeating Germany.

Where formerly the condition of the biscuits at breakfast was wont to try the temper, now it will constitute a gauge of patriotism. We are to say goodbye to white flour.

Germany is reported to be eating dogs. This country could spare her a few million, and they ought to be extra toothsome, too, as they have been practically brought up on mutton.

Hundreds of bushels of potatoes were lost by freezing this winter for want of proper storage. This ought to be a lesson to many who failed to make storage arrangements before hand.

Congressman Jeanette Rankin has broken into the Irish question. Some friend should whisper to Miss Rankin that that is the best question in the world to let alone. Its loaded at both ends.

## Headache Stopped

Headaches are Nature's danger signals. Find out what is the trouble. Cure that and you won't have any more headaches. Most headaches come from indigestion. Bowels fail to act properly. Poisons accumulate in the body. The blood becomes impure, and headaches and more serious troubles naturally follow.

H. S. Cope, a glass molder at Alton Park, Tenn., says that he suffered constantly from headaches, but that Vin Hepatica restored him to health so that he was able to go back to work.

All such headaches are stopped by Vin Hepatica, the great Nature medicine and universal system purifier. It contains eight herbal remedies which tone up the bowels and kidneys, purify the blood and thus make that kind of headaches impossible.

We surely recommend this wonderful remedy. Come in and get a bottle on our recommendation that it will help not only your headaches, but will regulate your bowels and kidneys so that you will find your health better than you have known it for years.

## IF PEACE SHOULD COME

Although it may be premature to speculate on the possibility of peace being consummated anyways soon, still the action of Russia, and added to this the utterances of Premier Lloyd-George and President Wilson, have set many people to wondering what would be the effect on this country should peace be declared.

This is a contingency we should be always ready to welcome. It can work only good to us, and not any harm. Those who pessimistically refer to "war profits" are shortsighted indeed. The business of the United States is in no sense dependent on war profits. True much of the national energy is being put into war preparation, but when peace is declared this force will welcome the opportunity to transfer to the arts of peace. These have suffered neglect and are in great need of attention.

We could stand a falling off in prices of all commodities and be the better off. We could also benefit by an enlarged supply of everything that enters into the life of the people. Surpluses in all lines have been swallowed up, and even with the world at peace, it would require years to reach the point where the surpluses would materially affect prices. This fact is our guarantee that for a long time to come the needs of the world will call for our utmost exertions, and at high prices.

The United States is not only the great creditor nation of the world, it is also the supply depot of the earth. All nations are now looking to us for the implements of peace as well as war. The war has greatly enlarged the field of our custom, because we have taken the trade of many of the warring countries, whose every energy is being expended on war activities. Our production and manufactures in the arts of peace are far greater today than ever before.

Peace, if it can be had with honor, will be welcomed by every soul in this country, because it will release for the beneficent service of mankind, prices that now are employed in the arts of destruction. It will take a generation for our greatest efforts to place us back where where we were in 1914, as far as concerns the available supply of all the necessities of life.

Peace, with honor, is the prayer of every earnest soul in this country.

The kaiser is at the parting of the ways. He can not much longer evade the issue of democracy and a democratic peace, or autocracy and a militarist peace. He must take his stand quickly, and his own people will hold him to a strict accountability—ultimately, if not now—for the attitude he assumes in this great war.

The American farmer is facing the mightiest obligation and the highest privilege that ever fell to his lot. The world confidently expects him to produce the greatest crops of foodstuffs that ever have come from the soil of any country in a single year. And he is making preparations to meet the world's expectation.

President Wilson's historic words, warm with sympathy for the democratic aims of Russia, seem to be bolstering up and inspiring the real democrats of that distressed land. It is to be hoped that the virus of German intrigue has not incurably poisoned the body politic of Russia.

The oldtime spendthrift who boasted of having "money to burn" now has a son who is boastful of the fact that he has coal to burn.

## PERSHING PRAISES MEN

In a recent communication to Secretary of War Baker, the commander of the American expeditionary forces said:

"There has never been a similar body of men to lead as clean lives as our soldiers in France. They have entered this war with the highest devotion to duty and with no other idea than to perform these duties in most efficient manner possible. They fully realize their obligation to their own people, their friends, and the country.

A rigid program of instruction is carried out daily with traditional American enthusiasm. Engaged in healthy, interesting exercises in the open air, with simple diets, officers and men, like trained athletes, are ready for their tasks. Forbidden the use of strong drink and protected by stringent regulations against sexual evils, and supported by their own moral courage, their good behavior is the subject of most favorable comments, especially by our allies. American mothers may rest assured that their sons are a credit to them and to the Nation, and they may well look forward to the proud day when on the battle field these splendid men will shed a new luster on American manhood."

The State of Tennessee is just entering upon one of the biggest programs of road building in its history. The many counties of the State are issuing bonds for new construction, the State has funds available and the United States Government has made appropriations which must be used in the immediate future. Within the next two years over three million dollars will be expended in new construction and reconstruction.

A great many country newspapers have been forced to raise their advertising and also job printing rates in order to stay in business. Many others have raised their subscription price from a dollar and a half to two dollars a year. It looks now as though all country weeklies would have to come to the two-dollar rate sooner or later—or else lock the front door and give the Sheriff the key.—Winnebago City (Minn.) Enterprise.

As a great many men now at Camp Jackson, S. C., are largely from Tennessee, the division insurance officer is especially anxious that the people at home write or wire the soldiers to take an insurance policy with the Government. A letter from home will, perhaps, do more to get your son, brother, husband or friend insured before February 12 than any other agency that may be used in the campaign.

Fuel Promoter Garfield urges business men to economize by reducing the length of time of keeping open. In many places they have agreed on the suggestion for stores to open at 8 a. m. and close at 5 p. m. Camden merchants are considering its adoption.

Germany says President Wilson is slandering that country. Woodrow would have to acquire some yet unknown language before he could slander that government. The English language is woefully inadequate for the task.

If this war goes on much longer they will soon be teaching geography in the schools by wireless.

### Work in Korea.

"You will be glad to hear that about one hundred new believers have been enrolled. Of course, we cannot expect to hold all of these, but many of them will prove faithful to the end. Another encouraging feature is the fact that a number of backsliders are coming back into the fold. This is a certain indication of the healthy condition of the church, for backsliders in Korea are often the hardest of all to reach."—Rev. M. B. Stokes, Choon Chun, Korea.
